

## Mandatory Post Accident Drug Testing

As your Workers' Compensation insurance partner Amynta Work Comp Solutions requires employers to conduct post-accident drug testing. After a workplace injury, a PADT is used to determine whether drugs or alcohol factored into the accident.

While a positive result does not necessarily mean that an employee's substance use was the main cause of the accident, it is critical that the test is performed.

The employer should establish a drug testing policy that clearly communicates how and when PADT will occur.

### How to Locate PADT Provider:
